1 Display labels to a entered delivery

1.1 Exercise summary (read only)

In order to get started with the navigation in the SAP menu, call the transaction for viewing and printing labels. Enter the document key of a delivery in the labelling scenario. After this step, the label tree could be displayed. In the label tree, the preview of labels is possible.

1.2 Exercise start (experienced user only)

Navigate to the following path: *SAP Menu→Logistics→Menu of Environmental, Health and Safety→Product Safety→ Global Label Management* (transaction CBGL_MP01).

1.3 Entry data (experienced user only)

For step	Delivery	Material
2	80013224	P192_99
For step	Generation Variant	
3	Primary label / 2 Symbols DE,FR,ES'	

1.4 Step by step (start your exercise here)

Step 1: Menu Path to transaction Label Printing

Navigate to Label Printing using following menu path:

SAP Menu→Logistics→Menu of Environmental, Health and Safety→Product Safety→Global Label Management→Label Printing

(Transaction CBGL_MP01) and open it by double click.

Step 2: Generate the label tree for a material of a delivery

Activate the 'Delivery' scenario by clicking on the appropriate tab:

Enter 80013224 in the field 'Delivery' and press 'Enter'.

Choose a material in the selective list.

In this example there is only one material item, so you don't really have to choose.

Press the button 'Label Tree'.

Step 3: Preview the label

Double click on the generation variant "*Primary label / 2 Symbols DE,FR,ES*".

Press the 'Preview' button

and view the label.
Have also a look on the other labels in the label tree.
